The Former's Policy Is To Make a Vassal of the Sultan.

OTHER POWERS NOT CONSIDERED

European Interference, Financial or Otherwise, and Will Finally Garrison the Dardanelles' Forts.

Copyright, 1896, by the United Associ-

ated Presses.) Berlin, Nov. 20.—The very latest advices received from St. Petersburg through and thannels confirm the reports contained in the dispatches of the United Associated Presses of coming changes in the administration of the affairs of the Russian empire and the appointmentioned as about to be made. dvices, however, discredit the reports of an Anglo-Russian entente. The view of the situation in Russia most generally taken in official circles here is that the ezar has not yet acquired confidence in himself or in any particular minister sufficient to warcant him in venturing upon a change in the foreign policy established by the ate minister of foreign affairs, Prince Lobanoff, and that for some time to come the foreign policy in force in Russia must necessarily be tentative. to the meantime the influence of M. Nehdoff, the Russian ambassador to Turkey and an aspirant to the foreign ministry, is dominant, which is regarded here as implying a continuation of Russia's protection of the sul-

the Ottoman empire shall become practically a vassal of the czar. This view s taken as an explanation of the fact that the scheme of M. Hanotaux, French minister of foreign affairs for the adjustment of the Turkish fluances has been rejected by Russia.

tan, her absolute rejection of all

schemes for European interference in

Turkey, financial or otherwise, and

the action of Russia in the capacity of

autor to the sultan until the sultan of

Concerning this scheme the inspired St. Petersburg Viedomosti frankly says: "The French proposal to add a Russian representative to the board of commissioners of the Ottoman dept would be dearly bought by the sacrifice of Russia's present exclusive conkrol of Constantinople. The lead taken by the late Prince Lobanoff has been ed by M. Nelidoff, who has suceseded in wiping out every European influence in Turkey. With England put of it, the draibund nowhere, and the car lord paramount at the Yildiz Kiosk, why should Russia do anything ; except wait, when instead of venturing upon war she will be able to dispose at her pleasure of all of the resources of Turkey and ultimately garrison the forts of the Dardanelles at will and use the name of the sultan as cal.ph n operating upon the Moslems in Egypt and Turkey The Novos Nremya, another inspired St. Petersburg journal, in an article expressing similar views, says. "The policy of Russia is not to support the action of the other powers, but to enforce her jiwn will. No matter what massacres of Armenians or other Christians may becur, the isolated action of Russ a is a practical reality . The Borlin govern ment is fully aware that this is the policy of Russia and is holding aloowhile awaiting developments, (sermany well knowing that Austria is ready to strike at an opportune moment to check the ascendance of Russia in Turkey | Inc sum of the present postion is that the porte paracel in Russia, will continue to play its old game of delusive reforms with impunity

Exportation of Artificial Wines. Commenting upon the enormous exports from Germany to the United States of artificially prepared wines and inferior spirits and beers, the Ber-In Neueste Nachrichten says that since the passage of the wine act by the reichstag in April, 1893, in regard to the adulteration of wines and accohole beverages immense quantities of Biquors have been brought into the market under the name of wines at such low prices as to prove it impossible that they could have been prepared in accordance with the law "A certain Rhenish firm." the paper says, "sells annually thousands of casks of wine in the composition of which there cannot possibly be anything beyond a merely nominal percentage of grape pwine, and other instances of the production of absolutely artificial wines might be given to the exhaustion of the richten demands the enactment of noon nome remedial legislation immediately , and suggests the passage of a law imposing a heavy tax upon wine manufracturers." Premier Laurier Going to England.

London, Nov. 30.-The Canadian premier. Mr. Laurier, is expected in London, accompanied by Sir Richard Cartwright, minister of finance, next spring. The questions of assisted emigration, a fast mail service and imperial aid towards enlarging the defense works on the Pacific and Atlantia cossts of the Dominion will be the deading topics discussed between the

consul George Sawter at Glanchau, Germany, sends to the department of state the following account of a report soon to be published in a German medical journal by Prof Pfeipper and Dr. Kalle, two well known bacteriolo-The Regthern Colossus Will Tolerate No sists of Berlin, giving the effects of a number of experiments they have made with "typhusantitoxine." "If their hopes are confirmed," says the consul, "the science of therapeutics an infectious diseases will have reteived another most valuable accession in this new discovery. The two experimenters believe that exemption from typhus germs, like immunity from enciers germs and other contagious diseases of like character, may be traced back to existence in the blood of anti-typhoid substances, and from this standpoint the very successful results of the investigation have been gained. That this theory is most important and practical is realized when the vitality of the typhus bacillus, as discovered by Koch, Eberth, and Klebs, is given consideration. The typhus bacillus known to exist largely in well and spring -water, and the fact that they are frequently the direct cause of infection is widely recognized by authorities on bacterology. Consequently this latest important discovery is to be greeted with joy, as it may prove in the future the means of preserving numberless lives from untimely demise, particularly as man is susceptible to attack from these bacilla during the best years of his development-20 to 25 years. The inoculations typhusantitoxine can be easily and quickly executed, and will prove of great value and benefit, especially in times of epidemic, when the need for a prompt and efficacious life-saving remedy is most urgent. The entire fruits of the experiments will soon be published for the benefit of the entire medical world."

M'KINLEY'S ADVISERS | THEIR EYES

Washington, Nov. 30 .- United States Speculation as to His Cabinet Growing More Animated.

ALCER MAY BE SECRETARY OF WAR

Senator Allison Prominently Mentioned for the State Portfolio---Chicago Lays Claim to the Secretaryship of Agriculture---Platt To Visit Canton.

Canton, O., Nov. 30.—Cabinet gossip is becoming more animated as the days go by. There is a renewal of the talk avent Gen. R. A. Alger for secretary of war. Some of his friends have been here within the past week, and it is known that Major McKinley thinks very highly of him. The name of Senator Allison is connected with the position of secretary of state. Andrew D. White of New York is still discussed for the same place. A New York republican who passed through here yesterday is authority for the statement that Thomas C. Platt of New York is thinking of coming to Canton within a few days to have a talk with Major McKinley concerning important affairs in his state.

Secretary of Agriculture. Chicago, Nov. 30 .- "Samuel W. Alleron will be our next secretary of agriculture, and Chicago has got there again," said C. W. Baker, secretary of the National Livestock exchange, when he returned from a visit to Canton, U. W. H. Thompson, jr., president of the National Livestock exchange; L. R. Doud, president of the National Livestock bank; C. A. Mallory and Joseph Adams, commission men at the stock yard, had accompanied him on a visit to the president-elect to advance the interests of Mr. Allerton. "In the discussion of the matter Mr. McKinley expressed opinions as to the general requirements of the head of the department that were in full accord with those of the committee," continued Mr. Baker. "He said he had a long and intimate acquaintance with Mr. Allerton, and spoke highly of him as a gentleman and a financier and business man, and while he did not tell the members of the committee outright that he would make him a member of his cabinet, we feel from the way he treated the matter he would appoint

CATHOLICS IN AMERICA.

The Pope To Consider Plans To Improve the Church Here: Rome. Nov. 30.—It is reported at the

vatican that the pope has ordered Cardinal Satolli. late papal delegate to the United States, to make a report on the situation of the clergy in America According to the report, his holiness charged Cardinal Satolli to propose such measures relative to the subject as he might deem necessary. It is expected that Cardinal Gibbons will come to Rome to discuss the question under advisement and to further enlighten the pope as to the best means of improving the situation of the American energy. After all the data is at hand and digested it is probable that the pope will issue an encyclical on the subject.

Ex-Secretary Foster Says the Hawaiians Want Annexation.

WILL APPEAL TO PRESIDENT M'KINLEY

The Islanders Fearful of Being Gobbled. Up by Some European Power-Fighting Factions in the Republic Render Self-Government Difficult.

Pittsburg, Nov. 30.—Ex-secretary of

state John W. Foster and wife, who are on their way to Washington from Hawaii, stopped over in Pittsburg Sunday. They went to the home of Rev. Dr. Kumler, in the east end. Dr. Kumler was the old pastor of the Foster's in Evansville, Ind., and they again heard in a combination formed in 1891 and him preach at the meening service in the East Liberty Presbyterian church. Mr. and Mrs. Foster spent a little more than two weeks on the island and Mr. Foster's observations confirmed the belief which he promulgated as premier of Mr. Harrison's cabinet that annexation by the United States is the duty of this government. "The present Hawaiian administration is awaiting the inauguration of President McKinley to make another effort to have the islands annexed," said Mr. Foster. "The constitution under which the people of the , United States Counsel Object to Two New islands are living at present has annexation as one of the main things to be striven for. The islands were never in a more prosperous condition than at present. They are prospering in a business way, because the last sugar crop was an exceptionally good one and the administration of President Dole is the best the people ever had. It is recognized that the ultimate fate of the islands, if they are not annexed by the United States, will be annexed by some other of the great powers. It will be impossible for the islanders to govern themselves successfully for any great length of time by the reason of the clash between the different elements, republicans and royalists, and natives and foreigners. One thing is settled and that is that the queen will never rule again or the monarchy be restored. So it remains for the United States to act without delay, or some other nation will assume power in the Hawalian islands."

NEW LOCK COMBINATION.

Firms Consolidate.

lock makers of the country are said to have formed a new combination to regulate the prices of locks in general, but more particularly trunk locks, on which it is claimed prices have been HE ruinously low during the past two or three years. The manufacturers said to be in the combination and who have organized under the name of the American Trunk Lock association are the Corbin Cabinet Lock company of New Britain, Conn.; the Eagle Lock company of Terryville, Conn; the Star Lock works of Philadelphia: the Yale & Towne Manufacturing company of Stamford, Conn., and Shrendt & Son of Newark. N. J. All of the firms, except the Yale & Towns company, were which was dissolved in 1893. Prices have been advanced from 25 to 30 per cent. within the past two weeks, and it is thought there is every prospect of a further advance. Provision has been made, it is said, against any dissolution of the present combination for a term of five years by requiring all of the firms interested to make a cash deposit of \$500 to be forfeited in case of any cut in prices.

BEHRING SEA COMMISSION.

British Claims. Victoria, B. C., Nov. 30.-At the last settling of the Behring sea claims commission counsel for the United States moved to strike out two of the claims filed by the British side on the ground that they did not come within the terms of the convention which had resulted in the formation of the present commission, not having been included in the summary of the claims referred to the Paris tribunal. These claims were that of the schooner Black Diamond for \$7,500 for loss arising from her being ordered out of Behring sea in 1886, and the personal claim of Capt. James Gaudin of the British marine service for \$3,000 expenses incurred in connection with the seizure of the schooner Aide. Both claims, the British counsel insisted, were among those which should properly be dealt with and correspondence regarding them clearly showed that it was contemplated to include both. The argument was continued at some length and the decision was reserved.

WROTE UNTIL UNCONSCIOUS.

To Describe His Feelings for Twenty Minutes After Taking the Drug, When His Writing

Became Illegible.

Chicago, Nov. 30 .- After destroying ;

all maks on his clothing which could, in any way lead to his identification, well dressed man about 30 years of age committed suicide at the Hotel. Kimball on South Clark street Saturday night by taking laudanum. He described the effects of the drug in writing until his hand could no longer hold the pencil. The body was not found until late last evening, death having resulted some time previously... In his effort to destroy all clues which might lead to his identification, the suicide forgot two things which indicate that he was an easterner. A small mirror found in his hand bears the stamp of a firm in-Rochester, N. Y., and the memorandum book in which he described; the manner of his death contains? the trade mark of A. W. McCloy &: Co., 443 Wood street, Pittsburg, Pa. He registered at the hotel as E. L. Byran. When found the body was lying diagonally across the bed and: the memorandum book and pencil were near by, having evidently fallen from: his hand. Before taking the drug her wrote a letter to the hotel proprietor and another to the press, in which has gave no cause for his act other than. that his life had terminated in failure. In both these letters he made some humerous remarks. He continued him description of the effect of the druguntil all his strength had failed him, and some of the last of it could not be deciphered. As much of it as could be ma cout is as follows:

Bis Feelings While Dying.

"To M. D.-Drank one ounce of laudanum. After five minutes feel! little or no pain. Heart action nows pronounced. A slight pain in stomach. (Note. My atomach is very weak, having suffered for years with acutor dyspepsia. Ten minutes-Condition about the same. Pulse rapid and pain in wrist and slight pain in region of heart. Hand trembles. A feeling of dullness, with more pain in all parts of the body. (Note. Will keep up this description of effects as long as possible. Hope it will be of use to medical. science.) Lyes show change. A feela feeling of intoxication, accompanied) by slight fever. Twenty minutes-Pain increasing. A slight perspiration started. Am getting sleey. Have a sort of numb feeling and no pain." The last few sentences were scarcely legible, so unsteady had the writer's hand become, and although he attempted to write a few more lines they could not be made out.

comes early to the clothes that are dragged up and down over the wash-board. It's ruinous. Nothing else uses them up so thoroughly and so quickly.

This wear and tear, that tells so on your pocket, ought to be stopped. Get some Pearline—use it just as directed—no soap with it and see how much longer the clothes last, and how much easier and quicker the work is. Pearline saves the rubbing.

Send Peddlers and some unscrupulous grocers will tell von "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—send it back.

THE BUSYBODY.

She sits behind the curtains drawn, Or else behind the shutters: She watches every coat and hat

And every dress that flutters:
There's not a thing the neighbors do—
Unless they seek to pester
By shutting doors and windows, too—
That doesn't interest her.

That doesn't interest her.

She knows what kind of meat they buy,
What kind of servants buy it,
Who calls on who and when and why,

And no one can deny it.
She hears the door bells when they ring, And, though she may be sleeping.
Up from her slumbers she will spring
To do her little peeping.

It's really fun, so folks aver, To see her daily dodging;

A matrimonial spat to her Is food and drink and lodging.
And should some husband come home late, O'ercome with curious capers,

He might as well proclaim his state In all the daily papers.

ERRORS.

Errors in matters which either are history, or one day will be such, are grievously common. Men who ought to know better make most remarkable statements about things, and then wonder at the derision they excite. For instance, at one of the noon-day political meetings a hectic gentleman who seemed to be right in the confidence of a great many great men, and who told about them with rapid-fire speech, took up the question of the United States army, and declared that it isn't anything like the army of Valley Forge and Bunker Hill, but that it has dwindled to a sort of select dancing club in blue clothes. He suggested that there are no campaigns any more. He alluded to certain occasions when he charged that the army had set out to conquer two dollars' worth of coffeecooling Indians and had spent \$12,000,-000 in doing it, the chief result being to give several regiments outing vacations in good trout countries. The speaker kept on at this rate and was applanded right along. Intoxicated by the success of his generalities, he committed the error of particularication. He declared that, "for instance, the recent alleged outbreak in Jackson's Hole was a war without bloodshed, in which no man was injured or rendered uncomfortable.

This is a great error, as can readily be proved by consulting with William frany. Mr. Crary is a young man who lives in a once-booming town, where he sold real estate in an addition called Haleyon Heights-a poetic place, with a brickyard in it and a great future and a big comfield before it. Mr. Crary is a man who is always out after experience. and when the first intimation came from Jackson's Hole that there was a chance for an aspiring coloner up that way, he decided to go out and look et the killing and get some souvenirs lle arrived in Reyburg with a determination to sell his life as dearly as possible, and to get a good assortment o hodak pictures in furtherance of the

At Pe durg appeared one Lewis, an electo in the precinct, who represented that the horse he offered for sale was kind and gentle, and also rapid. Crary had bought his fare in the stage, but the opportunity to purenase a horse might not present itself later, so he lundled his cargo upon the vehicle. and, with the assurance that he would tell Gen. Coppinger, who was somewhere over near the footbills-that a stage ful of lieutenants was coming, he started away gayly.

Now, the plain facts of it are that Lewis was a ferocious liar. The horse was one of those hig-honed, pan-footed beasts which, three in nutes after being mounted, resolve then elves each into one vast ridge pole, and which shove along at a floundering motion which shakes a man's boots of unless he is vary and experienced. These animals churn, pound, bruise and stupely the rider in half the time required by the elephant to accomprish a similar purpose. Mr. Crary lasted three railes, and when the stage drew up he monrafully declared that his spirited animal had thrown him and he had sprained his ankle. The beast had done nothing of the kind, but Crary knew his men.

Immediately there was wild contention among those four lieutenants. who, detached from their commands. were now en route to join them. Every one of them wanted to win glory by conquering the maddened steed of the Idaho desert. Nasely, of Angel island. won, and the other three disgustedly settled back to lie to one another about the experiences in horsebreating which they had had since leaving the Point Naseby rushed on ahead, and in a minure or two was out of sight, while Crary, in a semi-recumbent attitude in Naseby's seat, wondered what the army man would do to get out of it. He found ouin 15 minutes. At the next turn in the trail they found Naseby lying in a swoon beside the way, the vicious aninial standing near. The proper restoratives brought the false Nascby out of his fraudulent taint, and he releted with great circumstance how the borse had boited and had leaped an irrigation ditch 40 feet broad, had waltzed all over the neighboring country, and had finally stood straight up in the air on one hind leg, and, reaching around rearward with the other, had kicked Naseby in the small of the back until he felt life oozing out of him.

In a delirum of delight the other officers insisted that Naseby didn't know how to ride anything more violent than a Greek fishing skiff on the Sacramento river, and they insisted on chowing him how the thing should be done. Grissette, coming from Fort Robinson, obtained the great favor of the next mount, and as the remaining two soldier men velled encouragement and directions at him Nascby under his breath begred Crary to keep still about the harrible truth of the harrible heast. I "It is an boror," he said, "to be egge Inter Ocean,

"To America." "America!" she cried. "America!" The answer seemed to frighten her. She turned pale and grasped hold of a birch tree for support. He watched her narrowly.

"What are you going to do in America, Ola?" she asked, softly.

"Change my skin," he replied, with a vigor that startled her.

Ch, it is I who have put you up to this, Ola," she whispered, tremulously. "Yes, thank God! it was you," he cried, drawing her close up to him; "and if I come back within five years, with a changed skin, will you promise

to wait for me?" "I promise," she whispered, weeping quietly upon his shoulder.

"Then may God bless you, Birgit," he cried, gazing into her face with radiant eyes, "for you have saved me from

Five years from that day a young man was seen hastening up the hillsides to Oestmo. He had a big slouch hat on his head, and he was well dressed. His face was strong, square and determined; his eyes danced with joy, for in his pocket he had a royal marriage license with which he meant to surprise somebody on the Oestmo farm. It was five years to-day since he left her, and it was five years she had promised to wait for him. For this hour he had toiled, saved and suffered for five long and weary years. He had been a silver-miner in Leadville when the place was yet new, and he had sold his claim for \$50,000.

As he was hurrying along an old women who was sitting by the roadside hailed him.

"Gentlefolks out walking to-day?" she said, holding out her hand for a

penny. "Gentlefolks!" he cried, with a happy "Gentlefolks did you say, laugh.

"Yes. I said gentlefolks," said the old woman, gazing with big eyes at the dol-

lar he had flung into her hand. "Why, Gurid, I am Ola, who used to herd eattle at the Oestmo sacter."

"You. Ola! who was on the parish? Then you must have changed your

"I hat was what I went to America for," he answered, laughing.

The church stood half way up the hillside. There Ola sat down to rest, for he had walked far and was tired. Presenty he heard music up under the edge I the forest; there were one clarionet and several fiddles. A bridal party! Yes, there was the bride, with the silver crown upon her head and shining procedes upon her bosom. Pistol shots were heard, and singing and laughter. The procession came nearer. The birds flew up trightened along the road-ide. and the squirrels climbed chattering into the tops of the firtrees. Now the master of ceremonies opened the church moors wide, and went to meet the build and groom. Ola sat still, like a rock; but a strange numbness came over him the ground heaved under his feet. As the party drew near to the gate of the churchyard, he arose and stood, tail and grave, in the middle of the road. The uddiers stared at him, and stepped asule. Then came Birgit Ocstmo and i houser Sletten. She looked pale and

He took the bride sarm and marched boldly into the church. The wedding guests locked at Jens Oestmo, who was venting his wrath upon the groom.

WHOLE FAMILY PERISHED. Five Persons Burned to Death in Their Home Near Perry, N. Y.

Perry, N. Y., Nov. 30 .- A whole family perished in flames and smoke Sunday in the tenement house on the Irving Thompson farm situated about four miles northeast of this village, where resided the family of Luther Greenman, consisting of husband, aged 40; Mrs. Greenman, aged 37; Aime, aged 6; Lottie, aged 3, and Arthur, a baby 11 months old. The house was discovered in flames by Mr. Thompson. He rushed for the building and knocked open the front door, but was driven back for a moment by the flames which seemed to be in possession of the whole interior. Grouping his way to the bedroom he found the body of Mr. Greenman burned almost to a crisp, and it was all he could do to drag out the corpse. He was then compelled to flee from the house, the flames becoming so fierce. The house quickly burned to the ground. Coroner Watson arrived and the horribly charred remains of the family were taken from the smouldering ruins. An inquest will be held today. The fire was undoubtedly the result of a defective pipe.

A weak stomach and dyspepsia preventing me from indulging in strong roods such as I require to fit me for rollowing my occupation. Backache, headache and dizziness accompanied this, often so severe that they made me wild. I took medicine of all kinds for my sickness but I received little or no lasting rehei until I got a box or Doan's Kidney Pills at J. E. Mills' drug store. They seemed to help me right from the start and I kept on taking them until I was cured. The old pains and aches have left me and there is no indication of the trouble returning. CATS AND WILDCATS.

Peroclous Felines That Make Havoc Among Weaker Animals.

It has taken about 20 years to produce the wild cats of Goat Island, the degenerating process commencing soon after the lighthouse was established there in 1875. It seems that the first keepers brought a number of cats with them, but with unrestrained liberty the animals gradually forsook the comforts of civilization. Goat Island is the home of thousands of birds and ·quirrels, and to this is probably due the temptation of the cats to forsake the beepers' fireside. At first the cats would absent themselves for days at a time. but the kittens were born at home. In time, however, they got over this, and lived altogether in the underbrush. After a few years the descendants of the first cats were so wild that they were afraid of human beings and made their dens in the crevices of the rocks.

From that time the cats became wilder, until now they are as ferocious as the terrible creatures of the mountains. They have increased in size and changed altogether in disposition. They ere always seen in pairs and appear to mate, as all species of the cat tribe do in the wild state. The cats live on squirrels, quail and sparrows, as well as such other small animals as they can eatch. They are supplied with water from a dozen springs in different parts of the

A young fellow of 16 or 17 stood at the corner of Pennsylvania avenue and Nineteenth street the other morning. when the air was feeling like it would make a cyclist turn traitor to his country rather than miss a spin, and as u pretty girl-the prettiest of a bunch of pretty ones—whizzed past him with a emile and a nod, he pulled his cap at her, and, instead of bowing and smiling. he bowed and cussed.

A minute or so later the young fellow made a rush for a cable car as if it were a football, and when he landed he landed in the lap of a Star man.

"Helio!" exclaimed the Star man. 'where's your wheel? A man on a street car a morning like this is fit for raisins, chewing gum and shawls." The pretty-girl gang had turned

"Hamprox, Va.-Postum Coreal Co., Battle Creek, Mich.-Gentlemen · Replying to your letter I beg to say that your health coffee has a flavor, so far as I can remember, of the best coffee, and this coisee flavor was so pronounced that I suspected that coffee was mixed with the other grains. I served it to some of my guests without telling them what it was, and they pronounced it very excel lent coffee. One of them was a coffee drinker who had to have it three times a day. I would like to know if there is any coffee in it. Very truly yours, James McMenamia

BATTLE CREEK, Mich.-Mr. James Me-Menamin, Hampton, Va. Dear Sir: We have your esteemed favor of the 28th, and in reply to your inquiry as to ingredients, will say that we are willing to stake every penny we can get rogether that Postum not only does not contain conee, but that it is composed strictly and entirely of pure cereals of the field, the greater portion being the various parts of wheat. It took us nearly a year of experimenting to produce Postum, the health coffee. It is an easy matter to make a weak sort of drink from browned rye, wheat or malt but to produce a liquid from the cereals that has the color, taste and nourishing properties of our present product, taxed our best energies and that of one of the most expert analytical chemists in America

We left a desire to demonstrate the principal that man's drink at meals should be made from grains, without any sort of adulteration or chemical preparation, aside from simple cooking It may be further explained, that in order to produce Postum the cereals are cooked in different ways and the final mixing of the proper proportions is what give us the desired result There is no possible argument that can

be brought forward that will raise the question for a moment regarding the fixed fact of the healthful, nourishing and fattening properties of the cereals surnished by the all-wise creator for man's natural use. We thank you for your kind letter. Yours respectfully. Postum Cereal Co., Lim.

It is now said that the coal trust has given up its plan to advance prices iwenty-five cents a ton on Dec. 1st The demand during the past month has been anything but active and tradeconditions are not favorable for the maintenance of higher prices. Besides, the New York Legislature is soon to meet, and it is feared that if the combine is too grasping an anti-trust law may be passed that will really reach the trusts.

Two Dutchess county farmers have been held in \$1,000 bail each for giving a few drinks of hard eider to a neighbor who called to see them, one Sunday aitermoon. Of course the Grand Jury will throw the case out, but there is something radically wrong with a law which makes such persecution possible and which, according to its maker, does not prevent the sale of liquor illegally in 5,000 places in New York and Brooklyn.

The newspapers are arousing such a strong sentiment against Spain by the publication of accounts of ernelties and atrocities in Cuba, that the government may be forced to action. It is certain that when Congress meets resolutions expressive of sympathy with Cuba and of Eironceded hostility toward Spain will be offered in both houses, and it is easily possible that in this way a crisis will be precipitated that diplomatic prorestations of good feeling cannot bridge OYES.

has adopted a new plan of campaign. He proposes to lay waste the country and to leave not even a rat for the insurgents to eat. Mareo is, however, well supplied with food, and if his stores run short he is not the kind of a general to remain cooped up in the mountainsuntil starvation forces him to surrender. He has proved himself more than a match for Weyler and this new campaign will doubtless end in fresh disconfiture for the Spanish commander.

opinion of the civil service rules and regulations would not read well in print. According to the practical politician's idea the victory in State and nation is robb d of all useful results, because nearly every person in the public service i protected against removal, and there are not places for one in a hundred or the "statesmen" anxious to serve their country. Civil service reform, when it kept Democrats out in the cold, was sitogether lovely. Now that it stands between Republicans and otherst spoils it is an aboundation

The Sun figures it out that the percentage of toreign-born people in the states carried by McKinley average, 19.92 per cent., while in the states car. ried by Bryan only 12 14 per cent of the population are of foreign birth. This may perhaps show that McKinley's election was made possible by citizens of toreign birth, but it certainly does not prove that the native stock is less wise and less honest than the toreign nor that it is necessary to open wide the doors for a flood of immigrants in order to keep Americans from running and disgracing the land of their birth.

HOW TO TREAT BURNS

A burn extending over a large surface calls for the assistance of a physician. But in every family experience small burns occur requestly that are not date gerous but which are very painful at first, and which, it not treated properly. may result in a slow-healing sore, that is most troublesome. The main thing to remember about a burn is that at should be shut way from the air. Anything that shots out the an is good, but some applications are better than others. INCOMPATIBILITY OF TEMPER. Mrs. Lucila Young, Formerly of This City, Divorced by a Florida Court.

Friends in this ci'y have received information to the effect that Charles Young, of Jacksonville, Fla., has obtained a divorce from his wife, Luella Young, a daughter of ex-Alderman John W. Bowers, of this city.

They were married about seven years ago at Sidney. Mr. Young, whose home was in Binghamton, was at that time an employe of the O. and W. road. Soon afterwards Mr. Young became a conductor on the East Tennessee and Georgia road and he and his wife removed to Georgia. Later they removed to Jacksonville, Mr. Young having secured a position as conductor on the Florida Central road.

Mrs. Young usually spent the summer with her parents in this city, returning to the South in the fall, and Mr. Young generally spent his vacations here.

Mrs. Young's mother died last spring and she came here to attend the funeral and remained during the summer months. In September she received from a friend a marked copy of a Jacksonville paper containing a notice of application by her husband for divorce, the notice being served by publication. Incompatibility was the ground on which the divorce was asked.

In the latter part of October, Mrs. Young left for Jacksonville and on the day of her arrival a decree of divorse was granted her husband.

She made no defense, being advised by her attorneys that a divorce obtained in Florida in this way was practically worthless.

The couple have a son, Leslie, five years old, a bright little boy. Mrs. Young is well known and highly esteemed in this city. She is an intelligent lady and is regarded by her friends as altogether too good for her husband. She is still residing in Jacksonville, but what her plans for the future are her friends do not know.

THE ELECTRIC LIGHT CONTRACT Taxpayers Dissatisfied With the Service -The Company Bound by No Agree-

There is a great deal of dissatisfaction with the electric street light service. There has been some improvement in the arc lights, but most of the complaints come from the districts where incandescent lamps have replaced gas or naphtha. No fault is found with the new lights where they burn, but they are decadedly uncertain and people say they would preier gas or nachtha as a steady light to electricity with all its uncertainties as they have it under the present manage meut.

If the Electric Light Company was hal as energetic in carrying out the provisions of its contract as it was in inducing the Council to drive out naphtha and gas lights its service would be bet-

By the way, it is understood that no contract has ever been entered into be tween the Electric Light Company and the city. The company is not bound by any agreement to do anything in particular. So long as its bills are audited and paid it will doubtless be satisfied, and the people must submit whether they are willing or not. It is a very poor way or doing business all the same.

RAILROAD EMPLOYES' MEETING.

Members of Different Orders Hold a Union Meeting in Carbondale-Middletown Well Represented,

There was a union meeting of members of railway orders—conductors, engineers, firemen and trainmen at Carbondale, Pa., yesterday, at which were pres ent a large representation of members of these orders residing within 200 miles of

Middletown was represented by about 100 railroad men and their wives, who went to Carbondole on a special train over the O. and W., which left this city at 6:15 a.m. with Tom Farrell as engineer and John Fallon as conductor.

Arriving at Carbondale the railroad men assembled at the Opern House where a secret meeting was held. What its object was or what transpired within the closed doors the public will not know at present at least.

In the afternoon there was a public meeting' in the Opera House. Mayor James O'Neill, of Carbondale. was present and made an address of welcome and extended to the visitors the freedom of thecity. Addresses were made by officials of the several orders and by Rev. Father Coffee, of Carbondale, and there were recitations, music, etc., to entertain the large gathering.

The Middletown party arrived home at 11 o'clock, last night.

Superintendents Hopkins and West acompanied the Middletowners and look ed after their welfare.

A NIGHT OF AGONY.

Laid out in the Rain With Both Legs Crushed by Car Wheels.

A brakeman on Conductor Warren's train on the Erie saw the body of a man beside the track near Long Eddy. Saturday morning. The train was stopped and the man picked up and turned over to the local authorities.

The man was conscious and said he was F. D. Strait, of 27 Morgan street, Binghamton. He had fallen under the wheels of a ear. Friday evening, and had both legs crushed below the knees. He aid out in the rain all night.

The nature of his injuries and the ex posure will doubtless cause his death.

WHY THEY WERE SCARED.

A Horse Enjoying It. Liberty Frightened Beacon Street People.

A horse that had evidently escaped from its stable and was delighted at securing its freedom frightened the residents of Beacon street, last night, by racing through the lawns, kicking and snorting. Women screamed and men procured lauterns and revolvers and started out to investigate the unusual noise. After arousing everybody in the neighborhood the horse crashed through a fence and disappeared.

Preaching at the Old School Baptist

Elder E. Rittenhouse, of State Road, Delaware, will preach at the Oid School Baptist Church, on Roberts street, at 2 and 7:30 p. m., on Tuesday, Dec. 1st. Seats are free, and all will be welcomed at the meetings. Elder Rittenhouse is one of the oldest ministers in the Primitive Baptist denomination, and is extensively known as an able preacher and writer, having been a correspondent of the "Signs of the Times" for almost half a century.

J. B. Mackie, the original "Grimesey Me Boy" in Hoyt's "A Bunch o Keys," is SHOT A DEER.

Jacob Gunther Kills a Pine Doc - A Buck Started by Hlm Runs the Gauntlet of Iwenty Men and Escapes Unburt

On Thursday last Jacob Gunther went to Rowlands, Pa., to hunt for deer and about soon started up a buck and a doe. He did not get a shot at the animals at first, but during the afternoon the doe came back on the runway and fell a victim to Mr. Gunther's unerring aim and is now on exhibition at the James street market.

Mr. Gunther continued his hunt until Saturday, but saw nothing more of the big buck. He heard of him however, at Rowlands, for on Thursday afternoon, he came to the village, jumped off a precipice thirty feet high and passed through the village, then retraced his steps to the canal and finally disappeared up the railroad track. Every man in Rowlands who had a gun had a shot at the deer and all at close range but apparently none of the shots took effect.

The station agent said he was close enough to have struck the animal with his gun and fired both barrels but is of the opinion that he like all the rest of Rowlands had the buck fever, and that not one of the twenty shots fired at the deer struck him.

THE BLESSEDNESS OF GIVING.

How Pupils in Newburgh's Schools Are Taught to Be Charitable.

There has been a very commendable system of charity adopted in the public schools of Newborgh, by which the more fortunate pupils contribute clothing that they have outgrown, or money for distribution among the children of the poor who might not otherwise be enabled to attend school during the winter. The contributious are given only to school children, being gifts from pupils to pu

Last Wednesday, the contributions for this year were handed in. They consisted of \$88.79 in cash, 296 packages of clothing and twenty baskets of provisions.

Aside from the aid rendered to the poor children the system is a benefit to those who make the contributions by encouraging them to be charitable.

row, which had been reserved for them. I The chaptain preached a most excellent sermon from the subject,- 'Thanks giving." It was appropriate and all who heard it were pleased.

In addition to the music of the choir; Miss Emma Wolf sang a solo, which was admirably rendered.

KILLED BY THE MONTICELLO TRAIN The Dying Man Refused to Give His Name, but it Was Learned from Pa-

pers in His Pockets. At noon, Saturday, as the Monticello train was passing the Jersey avenue crossing, in Port Jervis, the engineer saw a man on the track, and gave the usual signals. The man did not heed the warning and was struck by the engine and knocked down, the wheels passing over one of his thighs. He was picked up and taken to the hospital where he died about three hours later. He refused to give his name, but papers on his person showed that he was James Burke of Parker's Glen.

Shot by Tramps on an Eric Train.

A. R. Carlton, a glass blower, boarded an Eric freight train at Corning. Wednesday night, for a free ride to New York city. Shortly afterwards two tramps discovered him, and presenting a revolver ordered him to hold up his hands. Instead of doing so he reached out to get something to defend himself with, when one of the men fired. They then rifled his pockets, securing \$1.60, all he had, At Binghamton Carlton was found lying on a tank car helpless. He had been shot in the right leg.

A Shortage in Broome County's Treas

It has just become known that there is a shortage of \$8,500 in Broomecounty's treasury. The present treasurer is not, however, at fhult, the shortage having been a legacy from the former treasurer, D. L. Brownson, who was \$15,000 short when he turned over the office. He asked that nothing be said about it and promised to make good the deficiency. ÈHe has paid \$6,500, but the failure of the banks in which he and his father-in-law were interested and other business troubles have made it impossible for him to pay up. It is said the county will lose nothing.

THE QUEEREST SALOON.

It is Nothing More Than a Gourd with a Crooked Handle.

The queerest seloon ever known in Kentucky has been discovered in Harlan county. It is a huge gould, with a crooked handle. This gould was hung

On a board over it was rudely insembed: "Order Office" In the side of the gourd was a hole large enough to admit a quart bottle. There was not a house in sight where this gourd was lianging, and the story of how it came to be used as a saloon is a peculiar one. For many years "Long John" Ratcliff conducted a moonshine still on

officers were unable to find his still, and he sold hundreds of gallons of whisky every year. His customers were so well treated by the old man that none of them felt inclined to inform on him.

John Ed Bogie was his distiller, and he saved up the money the old man paid him and all that he could make by stlling whisky on the ourside, and about two years ago started a distillery of his own on Crank's creek, which empties into Crummies creek, about a mile belou Ratchff's still.

Of course the old man tried to persuade him not to leave, and actually offered him double the salary he had been paying; but Beste left, and was soon making moons, ne on his own

The main road crosses Crummies creek almost at the fork, and "Long John" conceived the idea of putting up his silent saloon at this point. He accordingly rigged it up in the tree, and for nearly two years it continued to do by siness at the old stand.

Tinally Bogie hired some of his friends one night to take the gourd down. which they did, and it is now in the possession of Maj. George B. Cockrell, of Cumberland Gap.

The gourd is one of the largest of its species, and has a capacity of nearly bulf a bushel. It is very thick and strong, and shows no evidence of having been exposed to the elements for nearly two years.

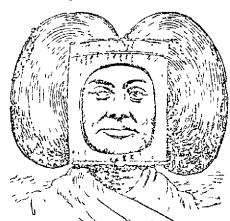

It is said that nobody ever complained of having a cent of money or a bottle ot whisky stolen from this gourd, but the whisky farnished through the medium of this strange saloon was often the cause of bloody fights among the mountaineers.

AMAZING HEADDRESS.

Awe-Inspiring Confiure Miceted by the Dudes of Africa.

The civilization of a people can often be told by the personal decorations they employ. All nations have had means of beautifying the person. Ideas as to what really constitutes beauty differs widely, but the general intent is the same. The conflure that is designed in Paris is intended to make the belle of Europe and America more fetching, and the Mucan belle arranges the kinks that grow on her head with the same purpose in view

In some respects the African belle has an advantage. And so has the African beau. Having few clothes on which to spend time and cash, these

The stiff hair that grows on the heads of the natives of Africa is so thick and invuriant that no hat or bonnet is needed or worn. It lends itself to the erection of amazing structures much more readily than the tine had found on expliced folks' heads. Such a headdress would serve much the same purpose is the huge hats formerly affected by the members of volunteer fire companies. It would take a tremendous blow to injure the cranium of the African with such a shock of thick and matted but as is shown in the picture. Even a sharp battle ax might be turned by such husute adorn ment, and the rays of a tropical sun would have slight effect through such thick covering

She Takes Much Pride in Her Pecunar Line of Business.

How Mrs. Lucila P. Rumney, of Saco Me. Came to Take Up the Embalming Trade-The Story Told by Herseif.

The new woman has made her pres ence felt in many lines of business, but until now very few, however "ad vanced," have attempted to become undertakers The very idea of a women embalmer and undertaker is decidedly grisly to

the ordinary mind, but the presence of death has no terrors for Mrs. Luella P. Runney, of Saco, Me., and she takes as nach pride in her peculiar line of business as a milliner and dressmaker in their productions. She takes the view of the mat-

ter that masmuch as the time is not distant when kind women neighbors prepared and dressed the remains of women and children there is no reason why she should not Armsfrong & LYon Block, No. 6 East to-day use scientific methods of embalning and preparing the dead and officlate at the funeral services.

How she came to take up and follow such a novel means of livelihood is told by Mrs. Runney herself in a letter to the New York World. She says: "In the winter of 1591, when a resident

of the city of Chicago, I became interested in the study of embalming, and early in the following year I began a preparatory study of thesart. In July I entered the private school of embalming at the undertaking establishment of B. A New Plooring Material. The name of papyrolith is given to a

novelty in flooring material which has lately been invented by Otto Kraner, of Chemnitz, the article being a special preparation of paper pulp which is in the form of a dry powder; when mixed with water it may be spread like morfar over stone, cement or wood, where it dries quickly and may be smoothly planed, besides which it may be tinted almost any color, in this way adapting it for parquetry with var egated borders, or for panels and mosaics Among the various advantages claimed by the inventor for the use of this product are freedom from crevices, deadening of noises, and poor conduction of heat, also considerable elasticity, safety from fire, and remarkable durability. It may be employed, too, for wainscoting and other architectural purposes, as well as for flooring.

Some say that the hypophosphites alone are sufficient to prevent and cure consumption, if taken in time. Without doubt they exert great good in the beginning stages; they improve the appetite, promote digestion, and tone up the nervous system. But they lack the peculiar medicinal properties and the fat found in cod-liver oil. The hypophosphites are valuable, and the cod-liver oil is valuable.

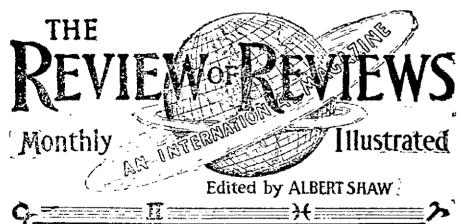

of Cod-liver Oil win Hypophosphites contains both of these in the most desirable form. The oil is thoroughly emulsified; that is, partly digested. Sensitive stomachs can bear an emulsion when the raw oil cannot be retained. As the hypophosphites, the medicinal agents in the oil, and the fat itself are each good, why not have the benefit of all?

SCOTT'S EMULSION has been indorsed by the medical profession for twenty years. (Ask your doctor.) This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites.

Put up in 50 cent and \$1.00 sizes. The small size may be chough to cure your cough or help your haby. All druggists.

Just as Good is not SCOTT'S EMULSION.

For the last 20 years we have kept Piso's Cure for Consumption in stock, and would sooner think a groceryman could get along without sugar in his store than we could without Piso's Cure. It is a sure seller.—RAVEN & CO., Druggists. Ceresco, Michigan, September 2, 1896.

"If only one magazine can be taken, we would suggest the REVIEW OF REVIEWS, as covering more ground than any other ma wine."-Board of Library Commissioners of New Humpshire, 1896.

HIS magazine is, in its contributed and departmental features, what its readers, who include the most noted names of the English-speaking world, are pleased to call "absolutely up to date," "thoroughly abreast of the times," "invaluable," and "indispensable." It is profusely illustrated with timely portraits, views, and cartoons. Its original articles are of immediate interest, by the best authorities on their respective subjects. The Editor's "Progress of the World" gives a clear, rightly proportioned view of the history of the human race during the current month. The "Leading Articles of the Month" present the important parts of the best magazine articles that have been written in every part of the world. The newest and most important books are carefully reviewed. Indexes, chronological records, and other departments complete the certainty that the reader of the Review

FOOT BALL IN RAIN AND MUD.

An Exciting Game on the Asylum Grounds, Saturday Afternoon-Middletown Defeated by Goshen, 10 to 4.

On Saturday afternoon, with a beavy rain falling and mud anywhere from two ro six inches deep, the Goshen Scholastic Soot ball team met the Middletown High School team on the Asylum grounds in the presence of between 200 and 300 people. It was a most exciting contest

The Middletown fearn was weakened by the sickness of one of its best men, Quarter Back Weed, which necessitated the shifting around of several of the men; yet they put up a strong game and made it very hot for the opposing team, who came up with the line with which they had played for months.

Coshen had the kick off and chose the soal to the south. Whidden kicked off. The ball rose straight as an arrow and fell right into the hands of a Middletown player, but it was dropped and a Goshenite secured it. It was now that Goshen's quick playing came into practice, for the line was up and Platt was off with the ball before our boys were hardly aware of it. When they caught the runner it was too late, for he was just over the line. Whidden failed to kick

Things now looked decidedly blue for the Middletowners, but they settled down to work and for the rest of the game played like vetorans. When the ball had been kicked off again it went back and forth over the field, but had not approached dangerously near either goal when time was called. Score Goshen 4. Middletown 0.

In the second half Middletown kicked off and soon got possession of the ball. They now went at it hammer and tongs and by faithful, earnest work carried it ap to within three yards of the goal and lost it on a down. Goshen tried to regain its lost ground by a kick, but Canfield breaking through the line blocked the ball and Parvin fell upon it securing a touch down for Middletown. Terhune failed to kick the goal. The score was now 4 and 4 and the excitement was in-

Goshen kicked off the ball and for a time the playing was mostly around the centre line, but finally Goshen kicked the ball way down the field and as before by a muff secured the ball. The lads from the Hub now went at it determined to get the goal, and get it they did with three minutes to spare. Whidden kicked the goal.

The ball was kicked off again, but nothing was accomplished when time was called. Score-Gostien, 10; Middle-

MISS STEWART'S WILKESBARRE KIR-

A Very Pronounced Success in Every Respect-A Large Sum Netted for the G. A. R. Memorial Ball Building Fund

The fete champ tre given in Wilkesbarre, Pa., last week, under the direction of Miss Lila Stewart, of this city, for the benefit of the G. A. R. Memorial Hall building fund was a pronounced success. The dauces, several of which were entirely new, were all admirably done. The entertainment caught the town on the opening night and the attendance was very large, the spacious armory in which the fere was held being crowded at every performance. A very handsome sum, about \$5,000, was realized after paying all expenses.

M.ss Stewart's success in Wilkesbarr is the more pronounced because of the fact that all previous attempts to give Similar entertainments in that city pave been failures, the last one having resulted brailoss of \$850.

Miss Stewart goes to Port Jorvis, this week, to begin releasests for an enterfainment to be given thereduring holiday week for the benefit of the Y. M. C. A.

JUDGE BROWN AND BEN ODELL.

Do Not Speak as They Pass By-Why the Judge Cut the Congressman. From the Newburgh Telegram.

The rumored row between Judge Brown and Congressman Odell is the talk of the town. The story goes that when Mr. Odell spoke to the Judge, the other night, at the Palatine Hotel, the latter did not return the salutation. Moreover, when asked by a third party for an explanation of his conduct the Judge is quoted as having said that he did not speak to liars. I don't know what the Judge was getting at, but I imagine that when he declared for McKinley he expected that the Republicans would live up to their agreement and retire Mr. Hirschberg, or somebody else, from the judicial ticket, and put on the Judge. In other words, they threw him down. Then the Judge recaliated by throwing Congressman Odell out of the temporary receivership of the Murray Hill Bank. Judge Dickey then led out with the right and made Odell one of the permanent receivers of the bank. The job is worth \$10,000 a year and is good for about three years. The next move on the checker board is awaited with deep interest by a large and breathless body of spectators.

pound" re-A COUNTY THAT TRAMPS AVOID

Fear of the Penitentiary Keeps Them Out of Putnam County. From the Carmel Courier.

Putnam county has solved the tramp question by the passage of what is known as the "Dean Tramp Law," by the Board of Supervisors. Up to the time of the passage of the act the county was flooded with tramps and the jail was filled with them. The county made a contract with the Kings County Penitentiary and all tramps are arrested and sent there as vagrants. The result is that wanderers give the county a wide berth. In nearly two years there have been but twelve convictions and four of them took place last week. The law has driven the tramps out of the county.

'For Fair Virzinia."

An entertainment of unusual excellence and merit may be confidently looked for at the Carino, next Saturday evening, when Mr. and Mrs. Russ Whytal will be land sold for cash or carried on margin. seen in the former's remarkably success- [ful play "For Fair Virginia," which is now in its second season. The story is domestic in tone, with a stirring background of the Civil War. Mr. and Mrs. Whytal appear in the comedy characters and the emotional work is in the hands of such well known and thoroughy capable players as Helene Lowell, Alexander Kearney, George F. Farren and John Woodward. That extremely clever child actress, Lottie Briscoe, has a very important part. A magnificent scenic production is carried.

WOMAN'S INFLUENCE.

The influence of women upon the civilization of the world, could never

be measured. Because of her, thrones have been established and destroyed. The finsh of her eye, the touch of her hand, and we have the marvellous power of women, glorious in the possession of perfect physical health.

Lydia E. Pinkham, by her wonderful discovery of the "Vegetable Com-

pound," has done much to place this great power in the hands of women. She has lifted thousands and thousands out of the misery brought by displacement of the womb, and all the evils that follow diseases of the uterus. The "Vege-
